### PRODUCT INFORMATION SHEET

#### Product Code

NUS-ATAPE-01

#### Product Description

Nudura Fiber Tape is a 1" (25 mm) wide fiberglass reinforced, biaxially oriented polypropylene strapping tape. This tape can be used for a number of applications including to provide additional support to the EPS foam for field cut forms that have more than 4" (100 mm) of EPS extending past the last web, support for site cut brick ledge forms at corner conditions, or to support radius forms.

#### Basic Uses

Nudura's Fiber Tape can be used in several different applications. Some of these applications include supporting the EPS foam for field cut forms that have more than 4" (100 mm) of EPS extending past the last web, support for site cut brick ledge forms at corner conditions, or to support radius forms. The Fiber Tape can also be used to help support bucking materials at openings.

#### Application

The surface to which the Nudura Fiber Tape is applied must be clean, dry, and free of grease oil, or other contaminants. The Fiber Tape must be applied in temperatures between -10°F to 150°F (-23°C to 66°C).
